February 2016 Vol 2 Issue 1

Greetings!

At the Annual General Meeting (AGM) of the RFI Board, Reiki Home continued to unfold! An exciting vision for Reiki Home grew, became clearer and the groundwork for future offerings was prepared. In this issue you will experience a small taste of the AGM.

We hope you sense our excitement as we continue to listen to Reiki and work together to manifest Reiki Home.

Highlights of the RFI Annual General Meeting

From September 9-17 the Board met for reflection, discussion and decision making in Orval, Belgium. Here are the highlights:

1. One word describes the experience - GRATITUDE. Gratitude for all the gifts of time, skill, effort, and money given over the past five years from so many people. Gratitude for the lessons learned, the challenges met and the reconciliation that resulted
2. The Bylaws were amended to support the vision of Reiki Home as a place of welcome for all Reiki students, lineages and established Reiki practices.
3. Financial reports showed a financially stable, transparent organization - one poised and ready for new growth.
4. A 3-year strategic plan was drafted and provides guidance for Reiki Home's growth through 2018.

New Purpose Statement

The Board has developed a new purpose statement and from it flows our work. It reads:

To serve the world by educating people in ways that the practice of Reiki creates a way of living that promotes mental, emotional, physical and spiritual health in which all life flourishes.

Reiki Home is a global movement inviting students to gather in Reiki as family, to work together. As we acknowledge and respect our differences, we become living examples of compassion and healing.

The Path Walked

It was in 2009 when a group of eight students began meeting monthly to explore the meaning of the word "Home."

2015 AGM Participants

From that small beginning, Reiki Home is emerging with the strength of shared purpose and a vision to serve the world from a place of deep gratitude.

The years between were filled with questions, moments of confusion and growing clarity of purpose and vision. It has not been easy and the journey gave each of us an invitation to grow in our understanding of the gift and call of Reiki.

We recognize and affirm that we are called to live Reiki, to be the change we seek and to live the Reiki principles and the spirit of Reiki Home. We are growing and developing shared leadership, with teams and groups working together supporting each other in living our lives in ways that are kind and loving to all Creation so that all life flourishes.

A Journey of Gratitude

As the Board and witnesses listened to and explored the story of Reiki Home's birth and development, we stopped many times to offer gratitude and send Reiki for healing.

All Board members from 1997 to the present were recognized for holding the energy that allowed Reiki Home to emerge. Reiki was sent to the people and places where pain and disappointment were experienced as we recognized and honored the gift of growth that came from those difficult times.

Gratitude was given for each and every contribution made, every word shared, every task completed or not finished. The activating and restraining energy worked through all of us to create a place of reconciliation which resulted in a more solid foundation upon which to manifest Reiki Home.

The journey began with one word - HOME - became a vision - and now is a living movement committed to changing the world, bringing peace to the planet and joy to the hearts of all.

Your Invitation

Reiki Home is a great adventure into the unknown mystery of Reiki. As we grow, we seek to live the Reiki principles, the spirit of Home, and to develop shared leadership with teams and groups working together.
